

CleanCert

Advanced 2-in-1 waterline disinfectant for complete protection

The CleanCert difference

	CleanCert	Other Waterline Cleaners
100% effective against all five stages of biofilm	✓	✗
Broad Spectrum microbial action	✓	✗
Dual action - Continuous & Shock*	✓ * 40 mins	✗ * 12-72 hrs
Removes biofilm in waterlines & connections	✓	✗
Non-toxic for skin, eyes and ingestion	✓	✗
Hypoallergenic and pH neutral	✓	Some Products
100% Environmentally responsible	✓	✗
Stable HOCL for extended shelf-life	✓	✗

Waterborne bacteria can quickly multiply to form dangerous biofilm, even when using a waterline cleaner.

Offering a higher level of performance and safety, CleanCert is the only 2-in-1 waterline disinfectant solution. Independent lab tests prove CleanCert destroys all five stages of biofilm contamination AND eliminates the bacteria that form the biofilm.

DUWL contamination can occur as a result of: scan to know the risks

Reduce the risks | With CleanCert

CleanCert

Performance

- Advanced, all-in-one formulation for continuous use AND shock treatment (ISO 16954)
- Proven to protect against all five stages of biofilm growth
- Removes ALL waterborne biofilm and free-floating bacteria from dental waterlines
- Innovative shock treatment, typically up to 90% faster than other single-action treatments - 40mins vs 12hrs
- Annual cost savings of at least 60% per chair; compared to leading competitors*
- Simple to switch - no complicated starter kits needed
- Convenient sizes 1L (BFCEP10) and 5L (BFCEP50) bottles for up to 25 shock doses

* ask for details

Safer

- Safe for you, your staff and your patients - even in concentrate
- 100% biodegradable - friendly for you and the environment
- Non-toxic, non-corrosive - easy storage and disposal
- Hypoallergenic and pH neutral
- CE marked as a medical device
- Validated to international disinfection standards including ISO 16954 (waterlines) & EN 14476 (viruses)
- Trusted by leading dental groups

CleanCert is the ONE solution proven to destroy all five stages of biofilm
